## Canvas

Mavstar Photography

**Comments:** Offering "The Long Quiet" Canvas Size 45 x 30cm.

captures a lingering yet unforgettable moment on my family's farm, Mavstar Simmentals, in western Victoria during the late 2024 bushfires. At its centre is Dakota, our beloved 17-year-old matriarch cow, quietly standing between two trees as smoke and fog blend into a heavy, surreal stillness. This photograph is more than a memory—it's a reflection of a season marked by drought, fire, and the quiet endurance that runs deep through rural Australia. The haze, which lingered for weeks, transformed the land into something unfamiliar. Each detail of the surroundings softened, and became muted. As a rural photographer, I aim to document the deep connection between people, livestock, and the land they live and work on. Through this image, I hope to share not just a visual, but a feeling—a moment of resilience and stillness in the face of uncertainty, and the ever-changing seasons we face in agriculture.
