WELCOME

Clare and Elridge Charolais are pleased to welcome you to our 15th Annual Bull sale at Eidsvold. Thank you to everyone that has supported us in any fashion over the years, it really does mean a lot to us. We appreciate how little time everyone has and we are grateful we can spend a few hours with you on sale day.

This year's catalogue of bulls are as good as we have assembled. There are some exciting new sire lines represented as well as the rock solid genetics that have cemented this sale as one of consistency and predictability. Being our 15th year reiterates our commitment to presenting a line of bulls at Eidsvold to breed cattle that suit the various markets of our diverse beef industry.

The commercial acceptance of Charolais cattle keeps gaining momentum for very good reason. They are cattle that have high growth rates and finishing ability. Clare and Elridge put an enormous amount of effort into selecting genetics to keep propelling the Charolais breed forward. Charolais aren't just another European breed, they have the largest gene pool of any European breed in the country. Clare and Elridge bulls are backed by generations of formidable genetics, this is key to breeding top shelf progeny.

Both Studs are in ticky country and we appreciate many bulls go into clean areas. Eidsvold is a clearing station, but we understand other clearing centres may be preferred. Both Studs will cover the clearing and feeding costs of any clearing station nominated by purchaser's . We are committed to ensuring bulls reach their destination without complication. Please talk to us if you have any special requirements, we will help. Both Studs work together to hold bulls over at our properties if required, again let us know what you need.

The bulls will be at the yards on Monday, 31st August, or on our properties for inspection prior to the sale, we are happy to assist in any way we can, the sale is also supported on-line by Auctions Plus and our agents. We look forward to catching up on September 1 at 12 noon, enjoy our hospitality and please stay on after the sale.

Warm regards Goodland and Warren families

SALE INFORMATION

Delivery and Transport

All delivery arrangements are to be made in writing on the buyers instruction form provided in the back of the catalogue.

Free delivery is provided to the municipal yards in Murgon, Coolabunia, Taroom, Theodore, Moura, Gympie, Mundubbera, Gayndah, Emerald and Biloela.

Accommodation

If you require assistance with accommodation please call us or the selling agent. Motels are available in Eidsvold, Gayndah, Monto and other surrounding areas.

Phones

Mobile phones operate at the Eidsvold Saleyards, please contact your preferred agent.

Registration Transfers

Registered Charolais Bulls are eligible for transfer. We will transfer the animals in due course after the sale. Please complete the details on the instruction sheet in the back of the catalogue. If you are not a member, please register by contacting the society on (02) 6771 1666.

Refreshments

Food and refreshments will be available throughout the day.

Outside Agent Rebate

2.5% rebate is offered to outside agents introducing buyers in writing 24 hours prior to the sale to the selling agent and settling within 7 days. Eidsvold Livestock will be settling accounts in 2026.

Breedplan (Breed average EBV's for 2024 born calves)

Estimated breeding values are included in the catalogue, this data may assist with assessing animals for their genetic capability, in addition to your physical appraisal. A full compliment of data is available on the Charolais Australia website.

	CE	GL	BW	200	400	600	Milk	Carc	EMA	Rib	Rump	RBV	IMF
	DIR							Wt					
EBV	+0.8	-2.7	+0.2	+12	+24	+32	+6	+20	+1.8	+0.5	+0.5	+0.1	+0.1

Bid Cards

The registered bid card system will be operating at the sale, please register with the selling agents prior to the commencement of the sale.

Health & Scans

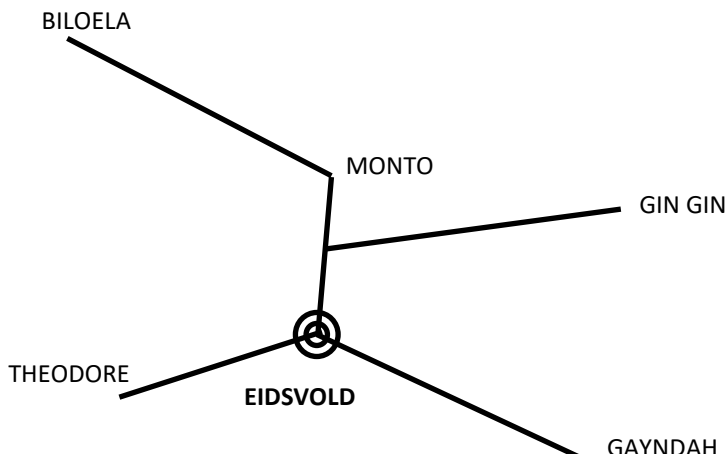

All sale bulls are vaccinated (fully) for 7 in 1, 3 Day Sickness, 3 Germ Blood. All bulls are semen tested and soundness evaluated by a Veterinarian. The bulls are scanned for eye muscle area, rib and rump fat and intramuscular fat, weighed and scrotal measured by an accredited provider.

Guarantee

We guarantee all stock sold as sound breeders. Any claims of infertility will be strictly adhered to under Section 17 of "Agents Term and Conditions." Any claim must be supported by a veterinary certificate within six months of the sale date. If there is a failure to breed a replacement of similar value or credit, equal to purchase price, given at the next sale less salvage value. This sale operates under the ALPA T&C's February 2017, displayed at the saleyards and agents websites.

Insurance

We recommend that all bulls be insured. An insurance service will be available on sale day.

AuctionsPlus

How to Register and Bid on AuctionsPlus

1

Go to www.auctionsplus.com.au to register at least 48 hours before the sale.

2

Select **"Sign Up"** in the top right hand corner.

3

Fill out your name, mobile number, email address and create a password.

4

Go to your emails and confirm the account.

5

Return to AuctionsPlus and log in.

6

Select **"Dashboard"** and then select **"Request Approval to Buy"**.

7

Fill in buyer details and once completed go back to Dashboard.

8

Complete buyer induction module (approx. 30 minutes).

9

AuctionsPlus will email you to let you know that your account has been approved.

10

Log in on sale day and connect to auction.

11

Bid using the two-step process – unlock the bid button and bid at that price.

12

If you are successful, the selling agent will contact you post sale to organise delivery and payment.

For more information please contact us on:

Phone: (02) 9262 4222

Email: info@auctionsplus.com.au

CLARE CHAROLAIS

Clare is owned and operated by The Goodland Family on the property 'Clare', located 30 k's east of Theodore. Clare Charolais was established in 1997 and since then the herd has grown to approximately 200 registered females. Clare also has a commercial herd of 800 females (all breeders are run on a commercial basis). Our cows are run on forest country and are selected to be efficient, meaning they are low maintenance and easy doing with emphasis on structural soundness, temperament, udder quality and fertility.

We are incredibly proud to present this year's offering of Charolais bulls, a draft that reflects years of careful breeding, selection, and dedication to producing functional, high-performing cattle. Each bull has been bred with a focus on structural soundness, temperament, fertility, and the genetics needed to add value to commercial and seedstock operations alike. We believe this is one of our strongest line-ups to date and are confident these bulls will go on to make a lasting impact in their new herds.

The genetics represented in this year's Sale includes our proven Sires Ascot Kudos, a polled Red Factor Sire, our lead Sire Moongool 747 who repeatedly proves himself, Moongool R268 (Robin Hood) who is an extremely consistent Sire who has some great bulls in both Clare runs as well as a new Sire Silverstone Son of a Gun who has a few bulls in the Sale that represent his slick coat and length of body.

A highlight for our year included the Theodore Show Stud section coming away with 1st and Junior Champion Heifer 17 and under 19months, 2nd for a Heifer in the 19 and under 21 months class, these two heifers came 2nd in the pair of females, a junior bull coming 1st in the bull under 9 months to become Reserve Junior Champion Bull and 1st with a bull 9 months and under 12 months who went onto become Calf Champion Bull, then Grand Champion Bull, then Supreme Champion Bull of the Show. At the same Show we were lucky to come away with a 1st in the Single Steer 2 Tooth class in the Prime Cattle section.

Another highlight included the Qld Region Charolais Feedlot and Carcase Competition. We came away with some ribbons including Steers Feedlot Gain (1st – Clare Charolais, 2nd – I, H & M Goodland, 3rd to 6th – Clare Charolais), Heifers – Feedlot Gain (1st – Clare Charolais, 2nd and 8th – I, H & M Goodland, Youth Exhibitor – Feedlot Gain, 1st and 2nd – I, H & M Goodland), Pen of 3 Steers – Feedlot Gain (1st – Clare Charolais, 2nd – Clare Charolais, 6th – N Goodland, 10th – Clare Charolais), Pen of 3 Heifers – Feedlot Gain (1st – I, H & M Goodland, 4th - Clare Charolais, 6th – Clare Charolais, 8th – Clare Charolais), Individual MSA Index – Heifer (2nd – Clare Charolais), Highest Value Add – Steer (1st – Clare Charolais, 3rd – Clare Charolais), Highest Value Add – Heifer (2nd – I, H & M Goodland, 3rd – Clare Charolais) and lastly the Supreme Performance Exhibit - Clare Charolais. Our children got involved in this competition so was a moment to cherish and be proud of.

We also love hearing from our clients with their successes and great results from local competitions and Sales where they are achieving top of the market prices with some winning Champion Charolais infused Weaners.

Bulls have been scanned for fat coverage, eye muscle, IMF and fully vet checked and soundness evaluated.

We look forward to reconnecting with previous buyers, as well as meeting any newcomers to the Sale. Please feel free to come and catch up and provide us with any feedback on how the bulls are performing so that we continue to breed quality bulls for you.

ELRIDGE

The Warren family commenced breeding Charolais in 1990. Our stud operates in the coastal Gympie region with an annual rainfall between 45 & 55 inches. We are very fortunate to have access to irrigation on our properties. Our home block, "Sirrah", is located south east of Gympie, the others are in the renowned Mary Valley adjacent to the Mary River, "Glendale" and "Wattlewood." We breed around 200 stud females annually using stud sires and artificial insemination and embryo transfer programs to complement our breeding programme.

All of our cattle are reared on pastures that are maintained with a regular fertiliser program. Our summer pastures consist of kikuyu, Seteria and Rhodes grass, we over-sow ryegrass and clover in the autumn which takes us through winter and spring. Our cattle are subjected to ticks, flies and humidity. Over the last 30 odd years we have selected a cowherd that maintains a strong constitution under our trying summer and autumn conditions.

In preparation for the sale our bulls are rationed (no self feeders) a low grain high fibre meal, fed silage and grazed on ryegrass pasture through winter. Our bulls are Pesti-virus tested negative, also being vaccinated with botulism, in addition to the specified vaccinations. All the bulls in this sale are assessed by a veterinarian, scanned and Breedplan recorded. Our draft of bulls have been DNA sire verified and DNA tested for the polled gene and had the relevant Charolais genetic tests. All of the information is available on the Charolais website.

We have added some information about the dams, including number of calves and the Calving Interval and indicated if they were born from heifers (approximately 2 year olds). Cows must calve each year at Elridge, being exposed to breeding for around 10-12 weeks.

Elridge again had success at the Charolais Feedlot Classic (over 400 head). Exhibiting the highest value add beast of the competition. She was a heifer sired by Elridge Quantum, she added \$1924.65 and had a growth rate of 2.394 kg/d. Elridge also exhibited Reserve Champion pen of 3 heifers for weight gain, again all sired by Quantum. We also received a 1st for carcase (Heifer 341-450.9kg), pen of 3 heifers (341-450.9kg) 3rd carcase. Pen of 3 steers we collected 4th and 7th place for feedlot gain. Our daughter received a 4th for heifer weight gain and we were placed 5th and 7th in the same category.

We have some new sires represented in our 2026 offering and we are pleased that their profit driving traits are very evident. Thank you for attending the ECBS bull sale, we look forward to catching up on September 1, we appreciate your support.

REFERENCE SIRE

ASCOT KUDOS (P) (R/F)

Palgrove Hallmark (P)(R/F)

Palgrove Kudos (P) (R/F)

Palgrove Gayle (P)

Paringa White Gold (P)

Ascot Western Spur (P)

Paringa Western Spur (P)

Kudos—Top 3% for Growth, Top 10% for Scrotal size & Top 25% for EMA. He is a super thick right through Sire by the Palgrove Kudos Sire. This bull has breed leading carcase data to really improve your progeny's grading. He has great balance, structural soundness with a great temperament. He continues to breed bulls that have a very Sirey outlook with lots of power, muscle, softness and his heifers that are now calving so far have a very neat udder.

Kindara Destiny (R/F)

Moongool Warocal Rachel 5

Moongool Warocal Rachael 3

Moongool 747 is a Sire that we found at Moongool 4 years ago and just thought he was what we had been looking for, for years. The depth of body, softness, bone and temperament with the bonus of being red is hard to find. His growth is unmatched and now he is in the Top 1% of the breed for all growth and Top 5% for IMF. He is breeding extremely consistent with both bulls and heifers being standouts with growth, bone, muscle and softness with unreal temperament. To obtain the perfect product, our breeding program has involved putting him over all polled cows.
